

NIDHI KALYANI

DATA PROTECTION & AI SAFETY SPECIALIST

Berlin, Germany, 16225 | nidhikalyani46287@gmail.com | +49 15162734759 | [LinkedIn](#)

PROFILE

As a privacy and AI governance professional with a strong foundation in commercial law, I excel in translating complex policy into clear, audience-ready communications. My experience includes drafting and publishing policy-facing content and coordinating cross-functional stakeholders to produce accurate, detail-oriented materials across digital formats. I am particularly passionate about responsible AI and technology policy, aligning well with roles that require a global, remote-first working style. My expertise in AI governance, policy writing, and research translation is complemented by excellent written communication skills, making me adept at managing communications workflows and engaging with diverse stakeholders. With a proven track record in privacy and data protection, I am committed to advancing AI governance through effective communication strategies.

PROFESSIONAL EXPERIENCE

Privacy Analyst, World Cyber Security Forum (WCSF) (Freelance)(pro bono)

Nov 2025 to Present

As a privacy and AI governance professional, I specialize in translating complex legal requirements into clear communications. I draft privacy policies and Records of Processing Activities to ensure GDPR and DPDP Act compliance, conduct Data Protection Impact Assessments, and apply ISO/IEC standards to build strong privacy frameworks. My work focuses on enhancing data management efficiency through robust incident-response documentation and data-mapping models.

- Drafted comprehensive privacy policies and RoPAs ensuring GDPR and DPDP Act compliance.
- Conducted DPIAs and audits to identify risks and document remediation steps.
- Implemented ISO/IEC 27001 and 27701 standards to develop privacy frameworks.
- Created incident-response and data-mapping models to improve data management.

Volunteer Contributor, World Cyber Security Forum (WCSF) & Data Privacy Bharat Centre (DPBC)

May 2025 to Present

As a privacy specialist, I developed privacy frameworks and governance policies with a focus on GDPR enforcement and emerging EU regulations, translating complex policy into clear communications.

- Conducted in-depth research on cyber law and privacy frameworks, including Schrems II and cross-border data transfers.
- Presented webinars on GDPR enforcement and EU privacy regulations, enhancing public understanding.
- Assisted in creating privacy-by-design guidance and digital governance policies to ensure compliance.

Legal Associate, INDIALAW LLP Bengaluru

Oct 2021 to Sept 2023

Transitioned from a legal background to focus on privacy and data protection, using expertise in GDPR and AI governance to improve compliance frameworks. Experienced in producing clear, policy-oriented communications and coordinating with diverse stakeholders.

- Drafted and reviewed critical agreements, ensuring privacy compliance in SaaS and vendor contracts.
- Advised on cyber law, supporting privacy-focused strategies under India's regulations.
- Conducted compliance audits and provided regulatory insights for banking institutions.
- Managed litigation portfolios, enhancing skills in dispute resolution and regulatory compliance.

Professional Development & EU Privacy Specialisation, Self-directed (post-relocation to Germany)

Nov 2023 to Apr 2025

Focused on GDPR and AI governance, I transitioned from legal practice to specialize in EU data protection, enhancing my privacy management expertise with TÜV SÜD ISO/IEC 27701 certification.

- Developed proficiency in privacy tools like OneTrust, Vanta, and Securiti PrivacyOps.
- Executed Records of Processing Activities (RoPA), DPIAs, and vendor assessments for compliance.

ACCOMPLISHMENTS

Active member of the World Cyber Security Forum, contributing to responsible AI governance and data privacy discussions by translating complex regulatory developments into practical community-facing guidance.

Conducted and participated in seminars and webinars on labor laws, cybercrime, and digital rights, strengthening experience in explaining policy and regulatory topics to diverse audiences.
