

NIDHI KALYANI

DATA PROTECTION & PRIVACY SPECIALIST

Berlin, Germany, 16225 | nidhikalyani46287@gmail.com | +49 15162734759 | [LinkedIn](#)

PROFILE

Based in Berlin and authorized to work in the EU, I am a privacy specialist with a robust legal background and a focus on GDPR operations and EU AI Act readiness. Transitioning from a legal career, I have honed my expertise in privacy and data protection, building Records of Processing Activities (RoPAs), conducting Data Protection Impact Assessments (DPIAs), and managing vendor assessments and incident responses. My hands-on experience with privacy tools like OneTrust, Vanta, and Securiti complements my ISO/IEC 27701 certification and ongoing CIPP/E candidacy. In my role as a Privacy Analyst at the World Cyber Security Forum, I have developed privacy frameworks and conducted audits to ensure compliance with GDPR and the DPDP Act. My work involves applying international standards such as ISO/IEC 27001 and 27701 to enhance data management and efficiency. Additionally, I contribute to discussions on cyber law and privacy frameworks, presenting on topics like GDPR enforcement and emerging EU regulations. With a strong foundation in legal and privacy operations, I am well-positioned to contribute to AI governance and strategy, particularly in defining frameworks and policies for responsible AI adoption. My experience aligns with roles that require cross-functional collaboration and strategic decision-making in fast-paced environments.

CORE SKILLS & TOOLING

PROFESSIONAL EXPERIENCE

Privacy Analyst, World Cyber Security Forum (WCSF)

Nov 2025 to Present

(Freelance)(pro bono)

Specialized in privacy and data protection, I draft comprehensive privacy policies and Records of Processing Activities (RoPA) to ensure compliance with GDPR and the DPDP Act (India). I conduct Data Protection Impact Assessments (DPIAs) and audits, identifying risks and recommending remediation. I apply ISO/IEC 27001 and 27701 standards to build robust privacy frameworks and develop incident-response documentation and data-mapping models to enhance data management efficiency.

- Drafted privacy policies and RoPAs for GDPR and DPDP Act compliance.
- Conducted DPIAs and audits, identifying and documenting remediation steps.
- Applied ISO/IEC 27001 and 27701 standards in privacy framework development.
- Developed incident-response and data-mapping models for improved data management.

Volunteer Contributor, World Cyber Security Forum (WCSF) & Data Privacy Bharat Centre (DPBC)

May 2025 to Present

As a privacy specialist, I have actively engaged in developing privacy frameworks and governance policies, focusing on GDPR enforcement and emerging EU regulations.

- Conducted research on cyber law and privacy frameworks, including Schrems II and cross-border data transfers.
- Presented at webinars on GDPR enforcement and EU privacy regulations.
- Supported the creation of privacy-by-design guidance and digital governance policies.

Legal Associate, INDIALAW LLP

Oct 2021 to Sept 2023

Bengaluru

Transitioned from a legal background to specializing in privacy and data protection, leveraging expertise in GDPR and the EU AI Act to enhance compliance and governance frameworks.

- Drafted and reviewed critical agreements, including SaaS and vendor contracts, ensuring alignment with privacy standards.
- Advised on cyber law, providing foundational support for privacy specialization under India's regulatory frameworks.

- Conducted compliance audits and delivered regulatory opinions for banking institutions, focusing on data protection.
- Managed complex litigation portfolios, honing skills in dispute resolution and regulatory compliance.

**Professional Development & EU Privacy Specialisation, Self-directed
(post-relocation to Germany)****Nov 2023 to Apr 2025**

Transitioned from general legal practice to specialize in EU data protection, focusing on GDPR and AI governance readiness. Initiated CIPP/E certification while advancing German language skills in Germany.

- Completed TÜV SÜD ISO/IEC 27701 certification, enhancing expertise in privacy management systems.
- Gained proficiency with OneTrust, Vanta, and Securiti PrivacyOps for comprehensive privacy operations.
- Conducted Records of Processing Activities (RoPA), DPIAs, and vendor assessments to ensure compliance.
